ROAD LINE COMPANY LIMITED

COMPANY OVERVIEW

Roadline factory ,for road marking machines, is one of the largest and most deep-rooted factories in the Middle East and Africa.

Seeking development, Roadline factory combined originality , experience, and latest techniques. Moreover, these qualities have been handed down through generations.

Roadline factory has successfully become a global competitor in the field of manufacturing Roadmarking machiens and Boilers. The crew, including team leaders , employees, and workers who have proven competence, cooperate in order to achieve the best performance. Besides, trainings are given to the whole crew in the factory's training centers inside and outside the factory.

Roadline factory is also very keen to offer its employees the fullest and finest medical , social , and recreational services. Thus, these services positively affect the performance of employees and maintain their sense of belonging to the factory.

Since its inception, the factory has won the confidence of everyone(governmental and private bodies) . This is due to the factory's machinery that applies the latest scientific and technological methods , which make the factory able to implement the projects according to the conditions and technical specifications required in a timely manner.

This shows the factory's success and continued progress that result from the proper planning guided by good and flexible management . This also made Roadline stands on a solid ground to face other national and multinational factories. This is due to the factory's broad base of technical personnel that is qualified, trained, and equipped with the best and the latest modern technology.

We always do our best in order to reach the highest levels and be the focus of everyone. Being equipped with the best and latest methods and techniquesss, we are always ready to keep up the reputation of the factory. Finally, with God's help and support, we promise to be as everyone expected us to be.
